### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

Claims 2-3 are objected to because of the following informalities:

Claims 2 and 3 are essentially of the same scope.

Appropriate correction is required.

### ***Oath/Declaration***

The error statements in the original reissue declaration and in the supplemental reissue declaration are concerned, raise two points:

1) The change to claim 1 is essentially a grammatical error, and the changes to claims 8-10 even more so.

2) The applicants claiming "less than" the applicants had a right to claim, because no apparent broadening. What appears is an attempt to change the language in claim 1 from language that states that the lock chambers are either sitting in an atmosphere environment or in a vacuum environment (which is equivalent to saying that the chambers exist) to language that says that the lock chambers contain (or are under) either an atmosphere or a vacuum. The changes to claims 8-10 are similar.

Assuming the error could be characterized as being a grammatical error, the corrections DO cure indefiniteness, and could be reissued if accompanied by a reissue declaration that said that the problem was indefiniteness (not "claiming less than") and the correction was to change

the language so that it's clear that the chambers contain either an atmosphere or a vacuum, rather than that the chambers exists either in an atmosphere or in a vacuum.

An issue raised of concern is that it would be proper to place better English into the claims: Rather than saying that a lock chamber is "to be in an atmosphere or in a vacuum" (as claims 1 and 8-10), it may be correct to recite that the chamber is "under" atmosphere or "under" vacuum (or even better "contains (houses) an atmosphere or contains (houses) a vacuum")??
